

# Anda Fairy Planet

Message from Petko Petkov (28.3.2023):

I'm very sad that StrateGems was closed. There were wonderful authors and problems there. Now with **Anda Fairy Planet** I will try - as long as I live - to maintain the previous level to some extent. In this sense, I will be very happy if I receive new originals from you. I am still receiving treatment, but at a time when I have some improvement in my condition, I want to renew a great tradition.

The tournaments for 2023-2024: Any kind of fairy stipulations, conditions, pieces and themes in 4 sections:

- a) Direct problems
- b) Problems with more than 5 pieces on the board
- c) Tanagra problems-up to 5 pieces on the board
- d) Series movers any kind.
